ALL-IN-ONE COMPUTER SYSTEMS

- > A sleek attractive design that is fanless with a small footprint, and is rugged with stable construction
- > Touch screen features include; a 15" TFT LCD with an Elo 5-wire resistive, capacitive, or SAW touch panel
- > High performance computer with an Intel Celeron-Mchip set, no internal moving parts, and no internal cables with compact flash mass storage
- > Solid, easy to adjust tilt angle with built in speakers
- > Designed for ease-of-service with modular design and detachable CPU base

Logic Controls All-in-One Terminals

Part #	Description	List
SB9015A-F203R-3	15" resistive touch screen all in one with 1.6GHz Atom chipset, 1GB RAM, 160GB Hard Drive, no mag reader, no operating system. Other configurations including, 2GB ram, rear display, mag readers, and other operating systems are also available.	\$1,285.00
SB9090-4203X-0	SB9090- 15" resistive touch Screen, Intel 1.66GHz CPU, 2GB Ram, 160GB Hard Drive, NO Mag Reader, Windows XP Pro	\$1,698.00
SB9090-4203X-J3	SB9090- 15" Projected Capacitive (two finger touch) touch Screen, Intel 1.66GHz CPU, 2GB Ram, 160GB Hard Drive, with Mag Reader, Windows XP Pro	\$1,600.00
SB9015-F2030-3	15" resistive touch screen all in one with 1.6GHz Atom chipset, 2GB RAM, 160GB Hard Drive, MSR, no operating system	\$1,250.00
SB9090-42030-0	15" resistive touch screen, Intel 1.66GHz, 160GB hard drive, No Mag Reader, No operating system	\$1,479.00
SB9090-4203X-J3	SB9090- 15" Projected Capacitive (two finger touch) touch Screen, Intel 1.66GHz CPU, 2GB Ram, 160GB Hard Drive, with Mag Reader, Windows XP Pro	\$1,600.00
SB9090-52030-0	SB9090- 15" resistive touch Screen, Intel DUAL CORE 1.66GHz CPU, 2GB Ram, 160GB Hard Drive, NO Mag Reader, no Operating System	\$1,545.00

SB-8200 SMARTBOX ALL-IN-ONE TERMINAL

New from Logic Controls,

- > Features a 10.4" resistive touch monitor
- > 160GB Hard Drive Standard, other storage available
- > MSR Included
- > Up to 2GB Ram
- > Up to 1024x786 resolution
- > Small foot print
- > Optional Finger Print Reader

SB8700 SmartBox All-In-One terminal

Part #	Description	List
SB8700HR-G1030-0	10.4" touch Screen, 1.66GHz Atom CPU (N450), 1GB Ram, 160GB Hard Drive, Mag Reader, no Operating System, 1024x768 Resolution	\$975.00
SB8700HR-G103P-0	10.4" touch Screen, 1.66GHz Atom CPU (N450), 1GB Ram, 160GB Hard Drive, Mag Reader, WEPOS, 1024x768 Resolution	\$1,200.00
SB8700HR-G103X-0	10.4" touch Screen, 1.6gGHz Atom CPU (N450), 1GB Ram, 160GB Hard Drive, Mag Reader, Windows XPPro, 1024x768 Resolution	\$1,120.00
SB8700-G103X-0	10.4" touch Screen, 1.6gGHz Atom CPU (N450), 1GB Ram, 160GB Hard Drive, Mag Reader, Windows XPPro, 800x600 Resolution only, LOW Cost	\$850.00

Other Configurations Available

TOUCH SCREEN MONITORS

- > Top Seller from Logic Controls
- > 15" or 17" Touch Screen
- > 5-wire resistive
- > Sturdy base
- > Value price for a great product

Touch Screen Monitor

Part #	Description	List
LE1000	TouchScreen-15" Resistive, USB	\$380.00
LE1017	TouchScreen-17" Resistive, USB	\$478.00
LE1000M	TouchScreen-15" Resistive, USB with installed bracket w 3 trk mag reader	\$484.00
LE1017M	TouchScreen-17" Resistive, USB with installed bracket and 3trk mag reader.	\$578.00

COMPUTERS

LC8600 INDUSTRIAL COMPUTERS

- > Fanless and ventless operation
- > No internal connecting cables and no internal moving parts for ultimate reliability with CF mass storage.
- > Mass storage: Compact flash, Solid State Drive and/or hard disk drive enclosed in a rugged die cast case.
- > Large number of available I/O ports
- > Ultra compact- only 2"H x 8"W x 6"D.

LC8600 Industrial Computers

Part #	Description	List
LC8700-G103X-0	1.66GHz Intel Atom chipset (N450), 1GB Ram, 160GB Hard Drive, Windows XP Pro, Inc. 4 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$875.00
LC8700-G2030-0	1.66GHz Intel Atom (N450), 2GB Ram, 16GB Solid State Drive, No OS, Inc. 4 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$750.00
LC8700-G103X-IE	1.66GHz Intel Atom chipset (N450), 1GB Ram, 160GB Hard Drive, Windows XP Pro, Inc. 4 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 DVIi/VGA, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$950.00

NOTE: The above upgrades and options are pre-installed prior to shipment. Call for pricing and availability for other configurations and operating systems not listed.

LC7000 Industrial Computers

Part #	Description	List
LC7000-512-1GB-CF-WINCE	LOGIC, INDUSTRIAL COMPUTER, 512 RAM, 1 GB COMPACT FLASH, WIN CE	\$550.00
LC7000-512-1GB-CF-XPE	LOGIC, INDUSTRIAL COMPUTER, 512 RAM, 1GB COMPACT FLASH, XPE	\$650.00
LC8600-F103X-IE	1.6GHz Intel Atom chipset, 1GB Ram, 160GB Hard Drive, Windows XP Pro, Inc. 4 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 DVIi, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$950.00
LC8600-F107X-0	1.6GHz Intel Atom chipset, 1GB Ram, 16GB Solid State Drive, Windows XP Pro, Inc. 2 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$935.00
LC8600-F107X-IE	1.6GHz Intel Atom chipset, 1GB Ram, 16GB Solid State Drive, Windows XP Pro, Inc. 4 SERIAL, 7 USB, 1 Parallel, 1 VGA, 1 DVIi, 1 Ethernet, 1 keyboard, 1 Mouse, and audio ports)	\$1,015.00

NOTE: Call for pricing and availability for other configurations and operating systems not listed.

SB9100 RETAIL COMPUTERS

- > Support Intel High performance processors
- > Modular design for easy maintenance
- > Rugged and robust design
- > Rich I/O ports to connect all the POS peripherals
- > Support PCI expansion slots, ready for industrial application
- > Fit horizontally or vertically in your work area

SB9100 Retail Computers

Part #	Description	List
SB9100-H1037-0	Celeron E1500 2.2GHz Dual Core 512K L2 CPU with internal fan, 1BG RAM, 160GB HD, Windows 7	CALL

NOTE: The above upgrades and options are pre-installed prior to shipment. Call for pricing and availability for other configurations and options

LK1600 PROGRAMMABLE KEYBOARD

- > 120 key, compact programmable keyboard
- > All 120 keys programmable, 38 relegendable and programmable with transparent key caps
- > Windows-based programming utility stores key definitions in data file for easy uploading into multiple keyboards
- > Key lock switch with multiple programming layers for security, manager override and multiple departments
- > Program up to 1800 characters per key with time delays
- > PS/2 or USB interface, OPOS and JPOS drivers
- > Optional magnetic stripe reader

LK1600 Programmable Keyboard

Part #	Description	List
LK1600-BK	120 KEY COMPACT KYBD BLACK - PS/2 INT., FULLY PROGRAMMABLE- Black	\$65.00
LK1600MU-BK	120 KEY COMPACT KYBD & MSR USB INT., FULLY PROGRAMMABLE - Black	\$75.00

*Add- BG for Beige, -BK for Black to part number. Call for other options including 3 track MSRs

MONITORS • COMPUTERS

LK1800 PROGRAMMABLE KEYBOARD

- > 132 key, full size programmable keyboard
- > All 132 keys programmable, 44 relegendable and programmable with transparent key caps
- > Windows-based programming utility stores key definitions in data file for easy uploading into multiple keyboards
- > Key lock switch with multiple programming layers for security, manager override and multiple departments
- > Program up to 1800 characters per key with time delays
- > PS/2 or USB interface, OPOS and JPOS drivers
- > Optional magnetic stripe reader

LK1800 Programmable Keyboard

Part #	Description	List
LK1800*	LK1800 w/ PS/2 Interface	\$170.00
LK1800U *	LK1800 w/ USB Interface	\$170.00
LK1800M*	LK1800 w/ Programmable 2 Track MSR, PS/2 Interface	\$185.00
LK1800MU*	LK1800 w/ Programmable 2 Track MSR, USB Interface	\$185.00

*Add- BG for Beige, -BK for Black to part number. Call for other options including 3 track MSRs

LK8000 PROGRAMMABLE KEYBOARD WITH TOUCHPAD

- > 122 key, true QWERTY keyboard with touchpad and 2 mouse buttons
- > All 122 keys are Windows-compatible and programmable; 46 keys are relegendable and programmable
- > Windows-based programming utility stores key definitions in a data file for easy uploading to multiple keyboards
- > Program up to 1800 characters per key with inter-character and inter-string time delays
- > Multiple interface options: PS2 (standard), or optional RS232 or USB
- > Optional integrated credit card reader

LK8000 Programmable Keyboard with Touchpad

Part #	Description	List
LK8000	LK8000 w/ PS/2 Interface	\$205.00
LK8000U	LK8000 w/ USB Interface	\$225.00
LK8000M	LK8000 w/ 2 Track MSR	\$225.00
LK8000MU	LK8000 w/ 2 Track MSR, USB Interface	\$280.00

Call for other options including 3 track MSRs

KB5000 PROGRAMMABLE POS KEYBOARD

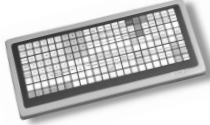

- > Built with high quality, full travel tactile keys with mechanical key switches
- > Windows-based programming utility stores key definitions in a data file for easy uploading to multiple keyboards
- > All 66 keys are programmable with multiple layers of key definitions and multiple shift levels
- > Program up to 1800 characters per key with inter-character and inter-string time delays
- > Multiple interface options: PS2 (standard), or optional RS232 or AT
- > Optional built-in MSR

KB5000 Programmable POS Keyboard

Part #	Description	List
KB5000*	KB5000 POS Layout w/66 Keys, PS/2 Interface	\$240.00
KB5000U*	KB5000 POS Layout w/66 Keys, USB Interface	\$250.00
KB5000M*	KB5000 POS Layout w/66 Keys, 2 Track MSR, PS/2 Interface	\$300.00
KB5000MU*	KB5000 POS Layout w/66 Keys, 2 Track MSR, USB Interface	\$310.00

*Add - BG for Beige, -BK for Black to part number NOTE: Please call for part numbers and pricing for accessories. 3 Track MSR also available.

KB3000 PROGRAMMABLE MATRIX KEYPAD

- > Built with high quality, stainless steel dome disks and gold plated lands
- > Windows-based programming utility stores key definitions in a data file for easy uploading to multiple keypads
- > All 176 keys are programmable with multiple layers of key definitions and multiple shift levels
- > Program up to 1800 characters per key with inter-character and inter-string time delays
- > Multiple interface options: PS2 (standard), or optional RS232 or AT
- > One-piece steel case

KB3000 Programmable Matrix Keypad

Part #	Description	List
KB3000	176 KEY PROGRAMMABLE KEYPAD, 19 X8.6 X1.3, PS/2 INT.	\$325.00
KB3000-R9	176 PROGRAMMABLE KEYPAD RS232, RS232 DB9F-9M	\$350.00

NOTE: Please call for part numbers and pricing for accessories.

CR1000 TITAN JR. CASH DRAWER

- > Excellent value reliable cash drawer
- > 16.1"W x 16.5"D x 3.9"H
- > Ball bearing slides for smooth and long-lasting operation, separate adjustable bill and coin compartments, and two media slots for checks, large bills, and coupons
- > Wide selection of interfaces: port-powered programmable USB, serial, and printer driven
- > Supports all major brands of POS printers
- > Three position lock for maximum cash security

CR1000 Titan Jr. Series (16.1"W x 16.5"D x 3.82"H)

Part #	Description	List
CR1000-GY	Printer Driven, Titan Jr. Value Drawer, Dark Gray, Order Interface Cable Separately.	\$120.00
CR1003-GY	16"W x 16.5"D x 3.9"H, Titan Jr – Requires no external power, USB - GRAY	\$210.00
CR1006-GY	16"W x 16.5"D x 3.9"H, Titan Jr - smart serial - GRAY	\$225.00

CR1600 AND CR1800 TITAN CASH DRAWERS

- > Heavy-duty cash drawers with industrial-grade ball bearing slides
- > Cable management compartment with opening door
- > Mounting holes for securing pole displays and peripheral cables
- > Wide selection of interfaces: printer-driven, standard or programmable serial or USB
- > Port-powered drawers available with serial or USB interface

CR6000 (16"W x 20"D x 3.57"H)

Part #	Description	List
CR1600*	Printer Driven, Order Interface Cable Separately	\$87.00
CR1602*	RS232, Requires No External Power Adapter, Serial Interface Cable	\$159.00
CR1603*	USB, Virtual Serial port w/ Programmable Security Code	\$159.00
CR1606*	RS232 Interface, Programmable Security Code, Power Adapter, Serial Interface Cable	\$159.00

KEYBOARDS • CASH DRAWERS • POLE DISPLAYS

CR1800 Series (18.8"W x 20"D x 3.82"H)

Part #	Description	List
CR1800*	Printer Driven, Order Interface Cable Separately	\$190.00
CR1802*	RS232, Requires No External Power Adapter, Serial Interface Cable	\$245.00
CR1803*	USB, Virtual Serial port w/ Programmable Security Code	\$250.00
CR1806*	RS232 Interface, Programmable Security Code, Power Adapter, Serial Interface Cable	\$265.00
CR1810-GY	Printer Driven Drawer. Same specifications as CR1800 without the cable management feature. Drawer measures 18.8"W x 16.2"D x 4.0"H	\$184.00
CB-CR1-EPS-RJ	Printer driven cable for CR1000, CR1600 and CR1800. Use with Citizen, Epson and Star printers.	CALL

**Add -BG for Beige, -GY for Gray to part number. The CR1600 and CR1800 series of Titan Drawers are complete with a cable management compartment and mounting holes for the secure connection of customer pole displays and peripheral cables.*

CR3000 SERIES CASH DRAWER

- > Includes patent-pending printer and solenoid burnout protection
- > Small form factor (15.7" x 16.1" x 3.3") without sacrificing till size
- > Wide selection of interfaces: printer- driven, RS232C, USB, programmable parallel or serial, pass-through, and OPOS
- > Port-powered drawers available with serial or USB interface No power adapter required
- > High security design with all metal construction & 3 position lock
- > Media slot for checks and large bills
- > Adjustable bill and coin compartments

CR3000 Series Cash Drawer

Part #	Description	List
CR3000*	Printer Driven, Order Interface Cable Separately, 4-in-1 Smart Drawer, Parallel, Programmable Serial RS232, Dedicated Serial RS232,	\$150.00
CR3001*	Printer Driven, Programmable Baud Rate & Customer Selectable Security Code, Serial Interface Cable, Installation Guide, 120 VAC Power Adapter	\$235.00
CR3002*	RS232, Requires No External Power Adapter or Printer Drive, Circuit to Open Drawer, Serial Interface Cable, Installation Guide	\$190.00
CR3003*	USB Interface w/ Programmable Security Code, Requires No External Power Adapter, Virtual Serial Port, Installation Guide	\$220.00

Call for other options including 3 track MSRs

PERIPHERAL BUNDLES

Aggressive priced bundles to boost your bottom line.

LV3000U

Part #	Description	List
Bundle-P1	LD1000 Slim line economy pole display (only available in bundle) and C415 cash drawer.	\$235.00
Bundle-P3	LD1000 slimline economy pole display (only available in bundle), C415 cash drawer and LE1000 touch monitor.	\$665.00

LV3000U POLE DISPLAY

Digital signage pole displays are an easy upsell! Easy to use; acts as a second monitor

LV3000U

LV3000U	7" LCD Pole Display; USB Connection	\$300.00

POLE DISPLAYS

PD3000 SERIES POLE DISPLAYS

- > The market-leading pole display
- > NEW universal model supports almost any command set or language
- > 5mm character height, 2 x 20 line display
- > Proven, time-tested reliability
- > Bright, vacuum fluorescent display with optically matched lens
- > Advanced functionality with smart scrolling, real-time clock & other features
- > Arrives pre-assembled, saving you time and money
- > Interfaces include RS232, USB parallel, pass-through, OPOS and JPOS
- > USB port-powered models available
- > NEW optional free standing base available

PD3000 Series Pole Displays

Part #	Description	List
PD3000*	Pole Display, 5mm Blue-Green Vacuum Fluorescent, 2x20 Characters, RS232 Interface, DB9F Connector, Logic Controls Command Set, 120VAC Power Adapter	\$225.00
PD3800*	Universal PD3000 w/ Programmable Command Sets/Code Pages	\$225.00
PD3900*	PD3000 w/ Logic Controls, OPOS & JPOS Command Sets	\$225.00
PD3900U*	PD3000 w/ Logic Controls, OPOS & JPOS command set, USB Interface	\$245.00
PD3900UP*	PD3000 w/ Logic Controls, OPOS & JPOS command set, USB Interface, Port-Powered	

*Add -BG for Beige, -BK for Black to part number.

USB, Serial, Parallel and Pass-thru interfaces are available on all universal & command set models.

Logic Controls. OPOS/JPOS, Epson, Ultimate Technologies, & Aedex command sets are available, and Emax, IEE, PartnerTech and Noritake, along with international languages are supported by universal models.

PD6000 SERIES POLE DISPLAYS

- > Proven, time-tested reliability
- > NEW universal model supports almost any command set or language
- > Large 11.25mm character height, 2 x 20 line display
- > Bright, vacuum fluorescent display with optically matched lens
- > Advanced functionality with smart scrolling, real-time clock & other features
- > Interfaces include RS232, USB parallel, pass-through and OPOS

PD6000 Series Pole Displays

Part #	Description	List
PD6000*	Pole Display, 11.25mm Blue-Green Vacuum Fluorescent, 2 x 20 Characters, RS232 Interface, DB9F Connector, Logic Controls Command Set, 120VAC Power Adapter	\$280.00
PD6900*	PD6000 w/ Logic Controls, OPOS and JPOS Command Sets	\$280.00
PD6900U*	PD6900 w/ Logic Controls, OPOS and JPOS Command Sets, USB Interface	\$315.00

Other Configurations Available

*Add -BG for Beige, -BK for Black to part number.

Note: USB, Serial, Parallel and Pass-thru versions are available along with special and OPOS/JPOS command sets. Please call for numbers and prices.

DISPLAYS

LD9000 SERIES POLE DISPLAYS

- > Proven, time-tested reliability
- > NEW universal model supports almost any command set or language
- > 9.5mm character height, 2 x 20 line display
- > Bright, vacuum fluorescent display with optically matched lens
- > Advanced functionality with smart scrolling, real-time clock & other leading features
- > Arrives pre-assembled, saving you time and money
- > Interfaces include RS232, parallel, pass-through, OPOS and JPOS
- > USB port-powered models available
- > NEW optional free standing base available

LD9000 Series Pole Displays

Part #	Description	List
LD9000*	Pole Display, 9.5mm Blue-Green Vacuum Fluorescent, 2 x 20 Characters, RS232 Interface, DB9F Connector, Logic Controls Command Set, Mounting Plate, 120VAC Power Adapter	\$250.00
LD9800*	Universal LD9000 w/ Programmable Command Sets/Code Pages	\$250.00
LD9900*	LD9000 w/ Logic Controls, OPOS and JPOS Command Sets	\$250.00
LD9000U*	LD9000 w/ USB Interface	\$260.00
LD9000UP*	LD9000-same as above with USB no external power supply needed. Powered by standard USB port.	\$260.00
LD9000T*	LD9000 w/serial Interface and telescopic (adjustable-height) pole	\$260.00

Other configurations available. RFID Compatible with MasterCard, Visa, American Express and Discover.

*Add -BG for Beige, -GY for Dark Gray to part number.

Note: USB, Serial, Parallel and Pass-thru interfaces are available on all universal & command set models. Logic Controls, OPOS/JPOS, Epson, Ultimate Technologies, & Aedex command sets are available, and Emax, IEE, PartnerTech and Noritake, along with international languages are supported by universal models. Please call for part numbers and prices.

TD3000 SERIES TABLE TOP DISPLAYS

- > 5mm character height, 2 x 20 line display
- > Proven, time-tested reliability
- > Bright, vacuum fluorescent display with optically matched lens
- > Advanced functionality with smart scrolling, real-time clock & other leading features
- > Interfaces include RS232, USB parallel, pass-through OPOS/JPOS

TD3000 Series Table Top Displays

Part #	Description	List
TD3000*	Table Display, 5mm Green Vacuum Fluorescent, 2x20 Characters, RS232 Interface, DB9F Connector, Logic Controls Command Set, 120VAC Power Adapter	\$225.00
TD3800*	Universal TD3000 w/ Programmable Command Sets/Code Pages	\$225.00
TD3900*	TD3000 w/ Logic Controls, OPOS & JPOS Command Sets	\$225.00
TD3900U*	TD3900 w/ USB Interface	\$245.00
TD3900UP*	TD3900-same as above with USB no external power supply needed. Powered by standard USB port.	\$245.00

Other configurations available. *Add -BG for Beige, -BK for Black to part number. All USB, Serial, Parallel and Pass-thru versions are available with special and OPOS/JPOS command sets
