

MOBILITY EDGE™ PLATFORM – WHAT IS IT?

A unified hardware and software platform for mobile computing that delivers agile business outcomes – faster, better, with less cost and risk.

What Are Its Key Benefits for Business?

1. ACCELERATE DEPLOYMENTS – Harness mobile solutions faster, easier, and at lower cost.

Validate once, deploy everywhere, enabled by a common platform

Deploy quickly across multiple form factors and use cases

Comprehensive provisioning toolkit **speeds time-to-value**

FEATURES:

- Enterprise Provisioner
- Android Zero-Touch Enrollment
- Staging Hub
- Setup Wizard
- Secure Provisioning

2. OPTIMIZE BUSINESS PERFORMANCE – Increase productivity, reduce cost, and make your business work better.

Platform capabilities that **streamline and error-proof work**

Productivity software suite **integrates seamlessly** with existing IT infrastructure

Operational Intelligence enterprise asset management solution **maximizes useful life, reduces downtime**

FEATURES:

- Data Capture Tools
- Wireless Tether
- Software Client Pack
- Keypad Creator
- Operational Intelligence
- Battery Hot Swap

3. EXTEND LIFECYCLE – Maximize ROI, reduce cost, and minimize the risk to your business.

Unique collaboration with Google and Qualcomm provides usability through Android™ R

Honeywell Sentinel™: commitment to critical security updates beyond Google's support

Android Enterprise Recommended: Confidently select, deploy, and manage validated devices

FEATURES:

- 5 Versions of Android (N to R)
- Operational Intelligence
- Battery Optimizer
- Self Diagnostics
- Extended Android Security Updates
- Committed Availability of Key Processor Components

4. STRENGTHEN SECURITY – Protect your brand, ensure compliance, and reduce risk.

Security by design in products, policies, and processes

Agile response capability with a commitment to transparency

Compatibility with OS upgrades out to Android R, including regular security updates

FEATURES:

- Deep Cybersecurity Experience across Multiple Domains
- Commitment to Ethical Disclosure
- Security through Supported Android Versions (N to R)
- Strong, Proactive Partnerships with Google and Qualcomm
- Honeywell Sentinel Security Updates
- Regular Security Patch Cadence

What Are Its Competitive Differentiators?

THE ONLY SOLUTION WITH GUARANTEED SUPPORT THROUGH ANDROID R – Longest lifecycle in the industry, with security patch support through 2025.

HONEYWELL HAS OVER 300 DEDICATED SECURITY PROFESSIONALS working to protect customers, and spends over \$50M annually on cybersecurity.

What Devices are Built on Mobility Edge?

Honeywell has a **variety of purpose-built devices** for multiple use cases on this common hardware and software platform.

Common System On Module (SOM), common OS software image, and common software ecosystem help customers to:

- Minimize cost, risk, and effort
- Accelerate time-to-value
- Maximize ROI

PRODUCT PORTFOLIO (STILL GROWING):

Dolphin™ CT40

An intuitive, compact productivity tool optimized for hours of comfortable use. Designed for retail, hospitality, light field mobility.

Dolphin CT60

A versatile business tool for highly mobile, front-line workers in scan-intensive workflows. Designed for field mobility, pickup & delivery, DSD, parcel.

Dolphin CN80

The most durable handheld Honeywell has ever made. Designed for warehouse, manufacturing, T&L. Ultra-rugged and flexible with keypad and touchscreen.

Dolphin CK65

A rugged, flexible solution for the warehouse with multiple scanner options and support for traditional TE and touch UI.

Thor™ VM1A

A proven vehicle-mounted form factor built on Mobility Edge. Hits the sweet spot of overall size, display size, and keypad.
