Comprehensive Solutions for Health & Natural Products Stores

Retailer In-a-Box | Auto~Star Edition provides a point of sale and retail management solution designed for today's health and natural products retailer. Whether there is one store or a chain of stores, this bundle provides a seamless end-to-end solution that assists in optimizing efficiency and customer satisfaction while lowering operating costs. Users of this solution will be able to:

- Streamline inventory management processes
- Increase sales and inventory turnover, while controlling margins
- Build customized reports for real time and relevant business intelligence

Plus, this easy to use system comes with a preloaded database of over 150,000 SKUs for Health & Natural Products. Combined with comprehensive business tools and retail analytics, this point of sale solution allows retailers to easily and efficiently run operations.

Retailer In-a-Box | Auto~Star Edition is available exclusively at BlueStar!
