Product Spotlight
WiFi Power Pack
The WiFi Power Pack is designed to make any Star LAN interface printer “wireless” in a cost effective way without a lot of messy cables.
EXO Secure Flip
The strong but open framework of the Archelon EXO allows for secure protection without detracting from the iPad’s modern and sleek design.

Compatible with: iPad 2, 3 and 4
Material: ABS Plastic, Nylon, Aluminium
Angle: Adjustable
Colours Available: Black
MSR Compatible with: MagTek iDynamo & uDynamo
Dimensions: 8.5” x 6” x 10.5”

Kiosk Retail
Kiosk Retail turns your iPad into a secure Point-of-Sale center, complete with encrypted magnetic card reader.

Compatible with: iPad 2 and 3
Material: ABS Plastic, Steel
Angle: 45 Degrees
Colours Available: White
MSR: Integrated
Encryption: TDES and DUKPT
Dimensions: 5.51” x 4.74” x 12”

WindFall™
The WindFall’s elegant design exudes strength while it preserves the slim profile of the iPad. Mount your cash drawer and receipt printer out-of-sight for the ultimate point-of-sale experience.

Compatible with: iPad 2, 3, 4
Material: Steel
Angle: 45 Degrees
Colours Available: White, Red, Black, Yellow, Green, Graphite, Transparent Coating
MSR: IDTECH UniMag II, MagTek iDynamo, Square

EXO Enclosure

Compatible with: iPad 2, 3, 4
Material: ABS Plastic, Nylon
Angle: Adjustable
Colours Available: Black
MSR Compatible with: MagTek iDynamo and uDynamo
Dimensions: 8.5” x 7.3” x 11.7”

Kiosk Retail Floor Stand

Compatible with: iPad 2 and 3
Material: ABS Plastic, Steel
Angle: 45 Degrees
Colours Available: White
MSR: Integrated
Encryption: TDES and DUKPT
Dimensions: 12.64” x 10.22” x 47.5”

WindFall™ For iPad Mini

SafeGrip For iPad

The iPad is an amazing tool that is rapidly being implemented in organizations around the globe. It opens up a whole new world of hands-on learning, productivity and opportunities for users. However, those sensitive electronic devices can take a real beating—particularly in shared use environments. That’s where the Kensington SafeGrip comes in. The SafeGrip preserves everything we all love about the iPad, while adding rugged, padded protection that different environments outside the office demand. SafeGrip also adds features users need, like a burly handle for carrying with which not only prevents drops and accidents but even doubles as a handy two–position stand for viewing and typing. The iPad screen is always at risk of damage, so the SafeGrip provides complete screen protection against scratches and smudges. It also features a stylus holder, since a stylus can really help keep oily fingers off the screen while also aiding accuracy.

PTM200-S

The DS6878-SR cordless 2D imager offers the complete data capture functionality required to streamline and error-proof everyday processes. Comfortable and easy-to-use, this single device can capture all common bar codes (1D, 2D and PDF417) on labels as well as on mobile phone displays.

The Socket Bluetooth Cordless Hand Scanner (CHS) 7Qi brings 2D and 1D wireless barcode scanning without sacrificing performance, making the CHS 7Qi an excellent general purpose data collection solution for the mobile workforce.
Retailers can take advantage of applications that run in the cloud and provide POS functionality at the local level. This allows them to make more services available to their sales associates so they can engage their customers and increase sales. And, its built-in hard drive, stores transaction data locally which allows retailers to continue processing transactions and keep their lines moving even when it can’t connect to the cloud.

Epson delivers the next generation of POS technology with OmniLink DT smart solutions. The OmniLink DT offers retailers all the application power, configuration flexibility and integrated mobile device support required to meet the needs of today’s retail environment.

The TH2 direct thermal 2” standalone printer is truly revolutionary. Anti-microbial casing makes the TH2 ideal for clean environments where hygiene control and contamination prevention are critical.

Designed for portability and functionality, the battery-operated TH2 allows users to print text, graphics, linear and 2D barcodes in high resolution. With its built-in keypad, there’s no need for a PC.

Print lined or linerless labels on-the-go at the push of a button. AEP Works™ software allows users to create custom label designs and download them directly to the printer, without modifying printer firmware.

OmniLink

Epson delivers the next generation of POS technology with OmniLink DT smart solutions. The OmniLink DT offers retailers all the application power, configuration flexibility and integrated mobile device support required to meet the needs of today’s retail environment.

AsuraCPRNT

The AsuraCPRNT’s computing capability, coupled with its ability to drive content to other devices such as smartphones, merchant tablets and digital signage, gives developers the perfect platform to create applications that engage the customer and provide an interactive in-store experience.

With unmatched utility, the AsuraCPRNT is capable of delivering audiovisual messages on its own screen as well as on external signage, managing queues and loyalty programs, tracking inventory, operating as a self-service kiosk and so much more. Truly one of a kind, the AsuraCPRNT leaves the developer to determine its ultimate role.

It features a retail-hardened PC, POSReady 7 or Linux OS, an Intel Atom 1.8GHz processor, built-in web server, graphics card and multiple ports for connecting POS peripherals—all in the small footprint of a POS printer.

Features

BASE MSRP (USD): $1850.00
Media width: 3”
Media Type: Receipts

Charge & Sync Cabinet for iPad®, 4th gen, 3rd gen, iPad 2 & iPad

With space for 10 iPads and the ability to stack up to 3 cabinets, the Kensington Charge and Sync Cabinet is the smart solution.

Each iPad cabinet is secured to a table with the integrated mounting plate or a cable lock. To simplify charging and syncing, you’ll find easy access to each iPad 30-pin connector port (cable not included). A single power cord provides charging juice for the entire cabinet. There’s even a built-in fan to keep your iPad cool.

- 10 iPad capacity
- Stack up to three cabinets
- Disappearing door opens wide for easy access
- Built-in cooling fan
- Tamper-resistant door with 2 included keys
- Built-in USB ports for charging & syncing (cable sold separately K67780WW)
- Secure with integrated mounting bracket, or security cable (K64615US sold separately)

BASE MSRP (USD): $900.00

DK-AirCash

Traditionally, cash drawers are controlled manually (key operated) or by a wired connection to a PC or through a wired connection to a printer. The DK–AirCash enables the control of the cash drawer either directly through an Ethernet, Bluetooth or MFi certified Bluetooth (Apple certified for use with iPhone®, iPad® and iPod touch®) connection.

The DK–AirCash connects through the cash drawer’s drawer kick port. This upgrades an existing cash drawer’s interface from a 24v printer connection to an Ethernet, Bluetooth or MFI certified Bluetooth connection.

Once physically connected, simply integrate the StarIO SDK (software development kit) into your application to start using DK–AirCash. By allowing secure control of your cash drawer wirelessly, you now have flexibility to configure the store layout without restriction due to wiring or other traditional infrastructure limitations.

- Enables secure control of cash drawer wirelessly
- Modular, able to be installed on existing cash drawers
- Cost effective solution to upgrade your existing cashdrawer’s interface to Ethernet or Bluetooth
- Supported by StarIO SDK (software development kit)
- USB power port available to power peripherals (tablet or other)
- Apple MFi Certified – pairs with all Bluetooth SPP devices as well as iPad®, iPhone® and iPod® touch

BASE MSRP (USD): $350.00

BluePRO™

APG Cash Drawer introduces the BluePRO™ interface — the 1st ever Bluetooth cash drawer. BluePRO™ connects a low–cost, printer–kick cash drawer and pairs it with a mobile device. By creating a one–to–one relationship, retailers can now wirelessly synchronize and transfer data between a mobile device and the cash drawer. The BluePRO™ interface achieves proximity when the mobile device comes within three feet of the drawer.

BluePRO™ Mobile Cash Drawer Solutions

- Place it
- Plug it
- Pair it
