

Note Acceptor

Your Solution for Secure Note Validation at any POS

The apg® Note Acceptor is designed to ensure safe and efficient bill validation and at the same time acts as a **secure storage for the validated notes**.

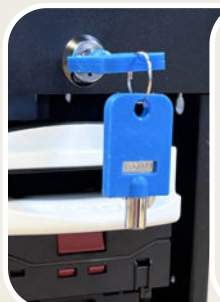

Equipped with advanced counterfeit detection technology and an interactive LED status display, the Note Acceptor empowers businesses to safeguard against fraudulent activity with ease. Compact dimensions and multiple fixing points enable hassle-free installation, while the stacker securely stores validated notes for added convenience and security for any POS.

Validation speed of the notes/bills is 2 seconds, and the Note Acceptor is equipped with a storage for 300 notes/bills.

Featuring support for Euros, Sterling, and US Dollars

The Note Acceptor can be used as a stand-alone product (N300) or easily integrated with smarttill®, apg®'s cash management solution (N300i).

Integrated with your POS software, the Note Acceptor enhances operational efficiency and security, positioning it as a valuable asset in any cash-handling environment.

Durable, robust lock construction, anti-drill design for added security.

Secondary locking on the stacker box as an option for enhanced security

Ergonomic design for easy insert of notes

Compact size steel case

Multiple mounting points on all four sides
