

QRlogix Healthcare Labeling Solution

Hardware: Brady PM45

Software: QRlogix

One-liner: Reduce Errors and Streamline Label Printing Workflows

Brady PM45

Solution: The QRlogix Software platform, featured on the Brady PM45 printer, delivers a modern and intuitive healthcare labeling solution designed to simplify specimen identification and streamline laboratory workflows. With an easy drag-and-drop interface, pre-built compliant templates, and simplified configuration, QRlogix helps healthcare organizations reduce labeling errors, improve operational efficiency, and accelerate deployment with minimal IT involvement.
