

Vertical Systems Rapid RFID Asset Tracking

VERTICAL SYSTEMS INC.

BRADY

Hardware: Brady CT47 Mobile Computer & IH45 RFID Scan Handle

Software: RAPIDRFID

One-liner: Inventory Management and Asset Tracking with RFID

Brady CT47
IH45 RFID Scan Handle

Solution: RAPID RFID is an RFID Middleware that is commonly used for asset and inventory management. Paired with the Brady CT47/IH45 combination allows users to quickly collect and find inventory. Using RFID technology for cycle counts and physical inventory is proven to dramatically reduce labor and increase inventory accuracy. It can be used as a stand-alone solution or intgrated into existing WMS/ERP systems.
