

Optimize Your Kitchen Operations with Epson and MicroTouch.

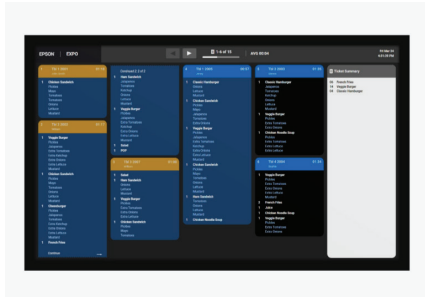

Optimize the way you run your kitchen with the Epson® TrueOrder™ Kitchen Display System (KDS) and the MicroTouch All-in-One Touch Computer.

This perfect pairing is ideal for quick-service restaurant (QSR) and small-restaurant environments. This easy-to-use solution digitizes your kitchen operations to help enhance productivity, from food prep to order fulfillment. This KDS solution offers a number of enhanced features to help boost your kitchen experience, including custom views for the kitchen, expeditor and customer-facing stations—all with intuitive touch controls. With the easy-to-use, browser-based configuration utility, the TrueOrder KDS is easy to set up and can be customized to fit your kitchen's workflow. You can configure the system to support as many as nine stations throughout your kitchen, so you can be sure order information is handled by the right station. This versatile system also connects devices to your local network without requiring an Internet connection.

With flexible mounting options, performance that exceeds expectations and sizes up to 65 inch; hardware is purpose built to not just survive but thrive in the harsh Food Service environment. Installation couldn't be easier. The Epson® TrueOrder™ Kitchen Display System (KDS) is preinstalled on MicroTouch hardware and ready for use. So setup is done in minutes and without installation costs.

See a difference with the Epson TrueOrder KDS and the MicroTouch AiO Touch Computer and set up your restaurant for success.

Epson TrueOrder KDS

The affordable, simple and easy-to-install kitchen display system

- **Increase accuracy** — no more lost or illegible tickets; digital order information is routed directly to your kitchen stations
- **Digitize your kitchen operations** — digitize your food prep process and help minimize paper usage
- **Custom workflow support** — can be configured to support your kitchen's custom workflow; add an Epson receipt or label printer for more flexibility
- **Optimize your kitchen** — with up to nine stations supported, build your optimized kitchen flow
- **Easy to learn for new users** — intuitive user interface is designed for easy operation in quick service restaurant (QSR) or small-restaurant environments
- **Easy setup** — Compatible with MicroTouch POS systems, with no software modifications or special licenses needed. Factory installed on select MicroTouch hardware for ease of deployment
