LABELVIEW & CODESOFT 2025

For mid-level to advanced labeling requirements, LABELVIEW and CODESOFT are two powerful yet easy-to-use barcode label design solutions to fit your business needs as they grow. Seamlessly connect to local databases or cloud data sources, set up a form to easily print labels with data selected at print time, encode RFID labels, and use built-in sample APIs to automate label printing directly to local workstations.

- ✓ GS1 Digital Link wizard to easily meet global standards
- ✓ Updated licensing for PDF and electronic output
- ✓ Optimized OData connection to cloud data sources
- ✓ Expanded barcode support, including the IEC 61406
- ✓ New ready-to-use label templates
- ✓ Added native label printer drivers

LABEL MATRIX 2025

For simple labeling requirements, LABEL MATRIX is a feature-rich barcode label design software for low-complexity labeling environments. Easily design labels using a familiar Windows interface and wizards to guide you through adding text, images, and barcodes.

- ✓ Expanded barcode support, including the IEC 61406
- ✓ Alignment with the latest GS1 general specifications
- ✓ Added native label printer drivers

“THANK YOU for having support staff that cares, is knowledgeable, and that are available! This proves to me how much your company believes in customer care. Great job!”

– Jason Cantrell, Kasai Group

Request a demo of SENTINEL print automation software

REQUEST DEMO

SENTINEL 2025

Eliminate the need for manual data entry, reduce errors, and simplify the printing process with label printing automation. TEKLYNX print automation solution, SENTINEL, enables printing out of an ERP system, WMS, LIMS, SCM, MES, CRM, or other business system and accepts multiple file structures, including XML files formatted by other solution providers.

- ✓ Enhanced integration with REST APIs
- ✓ Better management of unused printers
- ✓ Expanded Oracle connection options
- ✓ Introduced Microsoft® .NET 8.0 for select components
- ✓ Support for Windows Server 2025, leveraging built-in HTTPS and TLS 1.3

Request a demo of LABEL ARCHIVE security & traceability software

REQUEST DEMO

LABEL ARCHIVE 2025

Many industries are regulated to enforce labeling workflows and ensure the same process is followed every time a label is generated. LABEL ARCHIVE gives you full traceability of label design, storage, and printing to support compliance with industry regulations and internal process requirements.

- ✓ Better web module interface
- ✓ Improved label comments functionality and check in/check out process
- ✓ Easier API integration development
- ✓ Introduced Microsoft® .NET 8.0 for select components
- ✓ Support for Windows Server 2025, leveraging built-in HTTPS and TLS 1.3
