

Made for the Difference You Make

Trust Zebra's ET80 and ET85 Rugged 2-in-1 Tablets to power your best work

Your work takes you all over – even across entire towns so that you can deliver essential services to the communities that rely on you. You don't have time for mobile technology that weighs you down or holds you back. Zebra's new ET80 and ET85 Rugged 2-in-1 Windows Tablets lighten your load and power you up with incredible versatility. They have the range of abilities you need backed by the trusted engineering and global support that only Zebra can offer – and they're just the beginning of what's possible together.

Zebra ET80 and ET85 Rugged 2-in-1 Tablets

Your trusted lifeline because you put everything on the line. Achieve more:

Stay Connected Everywhere: 4G, 5G, Wi-Fi 6E, CBRS and public safety network compatibility

Dock and Undock in Seconds: Universal docking solution offers up to 9 ports

Ensure Security: Windows Hello front facing camera for facial recognition, finger print reader and CAC smart card reader to validate credentials

Conquer Long Shifts: Long-lasting batteries with hot-swap capabilities

Thinner and Lighter: Than major 2-in-1 competitors

On-the-spot Data Capture: Integrated scanner and rear-facing camera

Powerful Processing: Intel's 11th generation CPU processor to run Windows® 10

Rugged Durability: Certified at IP65 with ports open and tested at MIL-STD-810H

Work Flexibly: With a detachable rugged keyboard

Whether you're responding to a call in the field, traveling by vehicle or working at headquarters, experience endless versatility and boundless capabilities.

Empower Your Best Work with Zebra

As the global leader in rugged mobile computing and data capture, Zebra has the expertise, support network and broadest portfolio to help you outperform your competitors – and even exceed your own expectations. Your mission is our motivation.
