

Thermal Identification Solutions

○ Connecting health systems to what matters most

Connecting You to Enhanced Safety, Efficiency & Compliance

PDC Healthcare enables connected care from admission to discharge with end-to-end identification solutions, including printers, scanners & software, wristbands and labels that work seamlessly with your EHR. Our full solution allows providers to accurately match each patient to the correct medical record, medications, specimens and procedures at every stage of care. **PDC end-to-end ID solutions enable:**

- Increased patient safety
- Improved workflow efficiency
- Connection to the EHR for accurate treatment
- Effective communication
- Regulatory compliance
- Compliance with GPO contracts

Day after day, shift after shift, you can depend on PDC's highly reliable identification solutions purpose-built for your workflows.

Get peace of mind by partnering with the supplier trusted by over 90% of US hospitals for more than 70 years.

End-to-end solutions that enable connected care

PDC solutions are the thread that connects people, processes, medications, and specimens to the EHR, supporting accurate and efficient patient care.

Printers

Compact thermal printers designed to seamlessly connect with your EHR for reliable wristband and label printing

Scanners & Software

Purpose-built for healthcare with high-speed omnidirectional reading of 40+ barcode types and seamless integration with EHRs

Wristbands

Medical grade, performance-tested and highly durable— ensuring accurate identification

Labels

The widest offering of medical labels specifically designed for your healthcare workflows to reduce disruptions and errors

Certis® Desktop Thermal Printers

High Performance & Reliability

Enhance patient safety and clinical workflow.

PDC Certis® Desktop Thermal Printers offer easy integration, simple implementation and enable worry-free wristband and label printing to support your team's identification workflows.

Certis® C1-30

- Designed for a jam-free printing experience
- Hassle-free printing with simple drop-in wristband loading
- Seamless integration into existing EHRs for easy implementation
- Minimize IT involvement in both printer setup and maintenance with a dependable, user-friendly interface
- Carefully crafted to meet the needs of IT teams with a modern Printer Utility App with innovative tools

SPECIFICATIONS	CERTIS® C1-30	
Part Number	C1-30E	C1-30W
Printing Method	Direct Thermal	
Print Resolution	300 dpi (12 dots/mm)	
Print Speed	3" (76 mm) per second	
Media Width	¾", 1", 1 ½" (19mm, 25.4 mm, 28.6 mm)	
Media Capacity	400 bands max (6" infant bands)	
Connectivity	Ethernet (10/100/1000 Mbps), USB 2.0, Bluetooth Low Energy 5.2 for printer management	Ethernet (10/100/1000 Mbps), USB 2.0, Bluetooth Low Energy 5.2 for printer management, Wi-Fi 2.4 GHz 802.11 b/g/n
Warranty	3 yrs with 1 year Hot Swap Included	

Specially designed carrier enables easy drop-in loading and auto-calibration via Brady LabelSense

Wristband re-aligns to the start position after each print to ensure proper positioning

Industrial-grade printhead designed to last the life of the printer

User-friendly interface for simple troubleshooting

LED lights indicate the percentage of wristbands remaining

Wi-fi, Bluetooth & Ethernet connectivity options

Wipeable plastic designed to withstand a variety of disinfectants, chemicals and cleaning solutions

Small footprint to fit where you need it (9.1"L x 4.4"W x 7.3"H)

Certis® C1-30
Makes It Simple

Certis® Desktop Thermal Printers

Certis® B2

High Performance & Capacity

- Save time with a high performance, high-capacity printer; print and scan with confidence — from admission to discharge
- Versatile applications: patient ID wristbands, chart labels, medication labels, and more
- Easy loading and open compatibility prevents jams
- Compatible with leading EMRs including Epic, Cerner, Meditech, and others

SPECIFICATIONS	CERTIS® B2-20	CERTIS® B2-30
Part Number	PD-B2-20EA1000	PD-B2-30EA1000
Printing Method	Direct Thermal	
Print Resolution	203 dpi	300 dpi
Print Speed	Up to 5 ips	Up to 4 ips
Media Width	0.59" ~ 2.05"	
Media Capacity	6.5" outer diameter	
Connectivity	Ethernet and USB	
Warranty	3 years, plus 1 year overnight replacement included	
Recommended Core Diameter	1.0" or 1.5"	

Certis® B4

Versatile & Dependable

- Reliable and robust printer backed by an industry-leading 3-year warranty
- Supports a variety of healthcare print applications including Mother/Baby wristbands, chart labels, medication labels, and more
- Compact, easy media loading design
- Compatible with leading EMRs including Epic, Cerner, Meditech, and others

SPECIFICATIONS	CERTIS® B4-20	CERTIS® B4-30
Part Number	PD-B4-20EA1000 (Standard) or PD-B4-20WA1000 (Wireless)	PD-B4-30EA1000 (Standard) or PD-B4-30WA1000 (Wireless)
Printing Method	Direct Thermal	
Print Resolution	203 dpi	300 dpi
Print Speed	Up to 6 ips	Up to 4 ips
Media Width	0.7" - 4.5"	
Media Capacity	5.0" outer diameter	
Connectivity	Ethernet and USB, (Wi-Fi option)	
Warranty	3 years, plus 1 year overnight replacement included	
Recommended Core Diameter	1.0" or 1.5"	

Portico® Mobile Thermal Printers

Advanced Point-of-Care Identification

Keep workflows moving with mobile printers.

PDC Portico® Mobile Thermal Printers provide point-of-care print-on-demand solutions in all environments. They can be used in a variety of departments and locations to ensure round-the-clock printing in an instant, including industry-leading PDC labels and wristband solutions.

Portico® M4

Robust, Wireless & Cart-Mountable

- Compact design that can withstand the rigors and pace of any clinical environment
- Larger capacity for full wristband, chart label, and specimen label printing needs
- Compatible with leading EMRs including Epic, Cerner, Meditech, and others for easy integration into all hospital environments
- Ideal print solution for Workstation on Wheels and other mobile cart applications

SPECIFICATIONS	PORTICO® M4
Part Number	PD-M4-20WA1000 (Wireless)
Printing Method	Direct Thermal
Print Resolution	203 dpi
Print Speed	4 ips
Media Width	2.0" ~ 4.4"
Media Capacity	2.65" outer diameter
Connectivity	USB or Wireless
Battery	5800 mAh – Lithium Ion
Drop Rating	5 ft
Warranty	1 year
Min. Core Diameter	0.5"

Accessories available:

- 1 Bay Charger
- 4 Bay Charger
- Case with Shoulder Strap
- Cart Mount
- Media Spacers
- Spare Battery

Direct Thermal Wristbands

Fast and cost-effective printing with crisp, accurate barcodes every time.

Reduce waste and optimize efficiency with superior print performance and scanability.

ScanBand® Patient ID Wristband Carriers

Easy Drop-In Loading into the Certis® C1-30

- ScanBand® DR and ScanBand® Soft wristbands now come in a convenient wristband carrier for easy drop-in loading in the Certis® C1-30 Printers
- Ultra-durable wristbands designed to last a patient's full stay — up to 16 days
- Resistant to fading, moisture, alcohol, and hand sanitizer for top performance in the healthcare environment

ScanBand® DR

 Certified for **PDC Certis** Printers

Easy Drop-In Wristband Carrier

Simply drop it into the printer to auto-calibrate the settings for efficient changeovers and mistake-proof loading

Brady LabelSense

Save time with automatic setup and calibration to minimize waste

Fewer Changeovers

More wristbands on each roll saves time with less refills

Wristband Visibility

Open-faced carrier design allows visibility to wristband usage and an easy fix if a material jam occurs

GPO Contracted

Contracted with Vizient, Premier and HealthTrust for member cost-savings

Supply Chain Resiliency

Firmware adjustments enable contingency plans in the event of supply chain disruptions

Recyclable Construction

Simply pop the chip out and recycle using your facility's existing plastic recycling program

Made with Less Plastic

Than competitive desktop wristband printer cartridges*

*Measured by weight for a carrier/cartridge for 1-inch wide wristbands, without wristbands

Direct Thermal Wristbands

ScanBand® DR

Code® Barcode Scanners

Healthcare Workflows at Light Speed

Code is chosen by more facilities than any other scanning solution. With many customization options, Code scanning is ideal for many healthcare workflows:

Patient ID • Pharmacy • Admission • Supply Chain • Lab • Visitor ID

Mobile Trailblazing

CortexDecoder® soft-scanning solution started the EHR integration revolution. It continues to lead mobile innovation within healthcare facilities, enabling your scanning solution to work seamlessly with your chosen EHR.

Work Faster & Safer

- Easily read any barcode used in healthcare with near-zero-miss accuracy
- IP65 rating for demanding environments
- Easily-swappable battery
- Enterprise-grade soft-scanning mobile app integration
- Epic, Cerner, Meditech, and Allscripts compatible
- Custom configurations available
- CodeShield® disinfectant-ready plastics accommodate the strictest infection control protocols to protect your staff and patients

CR1500

CR2701

CR2702

Disinfect with Confidence with CodeShield® Level 3

Quality products begin with quality materials—that’s why we developed CodeShield®, the highest standard in infectious disease control for barcode scanners. Without CodeShield, commonly used cleaning supplies could degrade scanner housings, shorten product lifespans, void warranties, and leave your organization with replacement costs. CodeShield® Level 3 ensures your team can disinfect even with the harshest chemical cleaners.

See the full list of cleaners approved for each CodeShield Level at pdchealthcare.com/CodeShield

Scan with Confidence with CortexDecoder® Software

CortexDecoder makes it easy to integrate world-class scanning and decoding into healthcare workflows, integrating with leading EHR programs; Epic, Meditech, Cerner, and Allscripts.

Laboratory Identification Solutions

Improve Safety, Efficiency & Compliance

Increase patient safety and assure accuracy of identification at the point of care. Whether it's medication administration or specimen collection, PDC labels help hospitals utilize the latest barcode scanning and wireless mobility products for medical care. Labeling at the point of collection provides an immediate method of positive identification, increases accuracy of labeling specimens and containers, and can help reduce costs associated with re-testing. Our solutions are compatible with all laboratory information systems to provide seamless integration and interoperability with Cerner, Meditech, Sunquest, and others.

- Variety of laboratory labels compatible with all LIS
- Full customization capabilities to meet all your laboratory needs
- High-quality materials for enhanced durability and performance
- Exclusive V-Notch™ Labels for quick, easy, and accurate identification of BD Vacutainer® Plus Plastic Tubes with a unique design to align with color-coded notch on tubes
- Full offering of pre-printed communication labels and blood temperature indicators

Pharmacy Identification Solutions

Accurate Identification for Medication Administration Safety

Prevent medication errors and improve patient safety with PDC's full line of pharmacy medication labels. With options compatible with our thermal printers, PDC offers thousands of different types of Pharmacy labels to meet all your pharmacy needs. Compatible with all pharmacy information systems and automated dispensing systems to provide seamless integration and interoperability with Cerner, Epic, MEDITECH, VA Hospital, and others.

- Full customization capabilities to meet all your pharmacy needs
- Medical grade materials to ensure high quality and durability
- Full offering of pre-printed non-system labels
- HIPAA Compliant Thermal Labels provide an easy way to protect patient privacy

General Pharmacy Labeling Solutions

HIPAA Compliant Labels

Cover Patient Data

IdentiHide® Labels: Apply to cover the patient information, making it impossible to read from both sides of the container.

Obscure Patient Data

Self-Shredding Labels: Peel off the top portion of this piggyback label to obscure patient information.

Remove Patient Data

Perforated Labels: These single-layer labels make it easy to remove patient data — great for reissuing IV bags.

We're powered by Brady—a global provider of interconnected identification solutions at scale.
