

Pharmacy Identification Solutions

○ Connecting pharmacies to what matters most

Connecting You to Increased Safety, Efficiency and Compliance

PDC Healthcare enables connected care from admission to discharge with end-to-end identification solutions, including printers, scanners & software, wristbands and labels that work seamlessly with your EHR. Identify, scan and track medications efficiently to ensure precise, timely treatment. **PDC end-to-end Pharmacy ID solutions enable:**

- Medication error reduction
- Improved workflow efficiency
- Effective communication
- Regulatory compliance
- Connection to the EHR for accurate treatment
- Compliance with GPO contracts

Day after day, shift after shift, you can depend on PDC's highly reliable pharmacy solutions purpose-built for your workflows.

Get peace of mind by partnering with the supplier trusted by over 90% of US hospitals for more than 70 years.

Patient Safety Starts With Accurate Medication Identification

Ensure compliance with Joint Commission National Patient Safety Goal NPSG.03.04.01 to improve the safety of using medications by labeling all medications, medication containers, and other solutions.

PDC pharmacy labels help ensure safe medication administration through the **Five Rights of Medication Administration**:

**RIGHT
PATIENT**

**RIGHT
DRUG**

**RIGHT
DOSE**

**RIGHT
ROUTE**

**RIGHT
TIME**

Certis® Thermal Printers

Efficient, Crisp Label Printing — Compact with Mobile Options

PDC thermal printers complete the pharmacy's label solution, allowing personnel to quickly print high quality labels on demand.

- Seamless EMR integration with PIS and EMR systems Epic, and Cerner
- Reliable performance validated by thousands of hours of testing
- Industry's most competitive printer warranties of up to 3 years
- Guaranteed to ensure 100% customer satisfaction

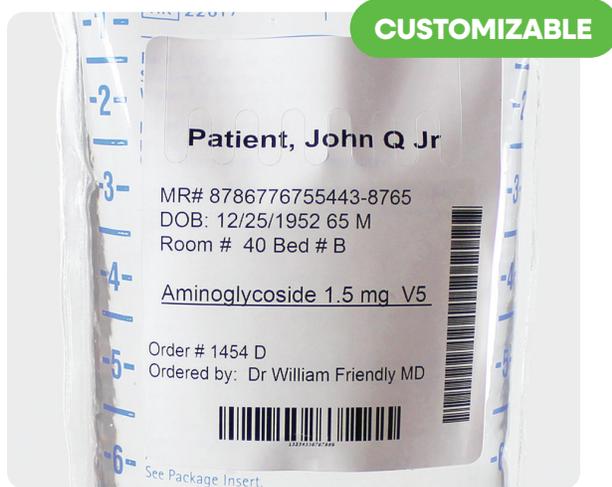

Code® Rx-Ready Barcode Scanners

High-value, High-performance Scanners Fortify Pharmacies

- These barcode readers scan any barcode (whether scratched, stained or shiny) on any vial, bottle or label type — superior tech won't slow workflows
- Via JavaScript, these scanners pull specified data from one (or multiple) barcodes at once and can verify age — ideal for compliance and safety
- These scanners use disinfectant-ready plastics that won't yellow, crack and cause premature device failure like "antibacterial plastics" — protect staff and your investment
- Remote firmware updates keep devices current

Medical Grade Pharmacy System & Automation Labels

Blank, Thermal Labels Rigorously Tested to Reduce Errors

PDC medical grade thermal labels reduce labeling errors and assure accurate and lasting identification of medications and more to increase patient safety.

- Compatible with leading PIS such as Cerner, Epic, McKesson, VA Hospital, and most direct thermal printers
- Compatible with pharmacy automation robotics: OptiFill®, Pyxis® MedStation™, and ScriptPro®
- Experienced technical support available to set up system integrations and printers

Communication Labels

Highly Visible to Command Attention – Over 500 Color/Size Combinations

Clearly communicate important instructions, information and alerts within the pharmacy and between departments.

- Hundreds of pre-printed options to help you communicate, comply, identify, and organize to keep your pharmacy running efficiently
- Bright colors and easy-to-read, bold text
- Customizable to communicate your exact message or fit your specific size requirements

Medication Warning Labels

Over 500 Stock Options to Clearly Communicate Warnings for Safe Medication Use

Clearly communicate important prescription instructions and warnings with these industry standard labels.

- Colorful, bright and easy to read to command attention
- Available in multiple languages
- Integrate the **SoftFonts Warning Label Graphics Library** with your pharmacy management system to create custom warning labels using the library of icons, text and barcodes
- Choose **label and tape dispensers** to keep your pharmacy organized and efficient

Medication Labels & Tape

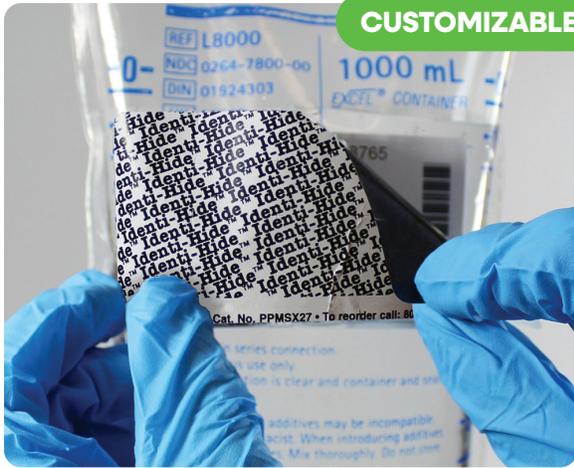

Reduce Medication Errors

These labels and tape are pre-printed with medication names and dosages to prevent confusion and misidentification errors resulting from illegible handwriting.

- Pre-printed with drug names and strengths and includes prompts for date/time, expiration date, volume, and personnel initials
- Color-coded to follow ASTM standards for drug classes
- Meet applicable Joint Commission National Patient Safety Goals

HIPAA Compliant Labels

CUSTOMIZABLE

Cover Patient Data

IdentiHide® Labels

Apply to cover the patient information, making it impossible to read from both sides of the container.

CUSTOMIZABLE

Obscure Patient Data

Self-Shredding Labels

Peel off the top portion of this piggyback label to obscure patient information.

CUSTOMIZABLE

Remove Patient Data

Perforated Labels

These perforated, single-layer labels make it easy to remove patient data — great for reissuing IV bags.

Other Products

Label & Tape Dispensers
