

## LINEA PRO RUGGED FOR iPhone 15/16/16e

# Power, Flexibility & Performance Your Workforce Can Rely On

By being the first to introduce mobile scanning and payment solutions for iOS devices back in 2009, IPCMobile kickstarted a mobile revolution, partnering with Apple to empower enterprise customers with the ability to grow business operations with less limitations. Our enterprise-grade devices can be customized to match your company brand and are built to last with some customers leveraging the same scanning solutions for 10+ years through some of the harshest climates and industrial environments.

## Linea Pro Rugged

Compatible with iPhone 15, 16, 16e

- Automate data entry to improve efficiency and accuracy for high-volume scanning workflows
- Easily implement into existing workflows with an integrable SDK or data wedge app
- Stay connected in the most remote locations with enough battery power to last multiple shifts
- Withstand the toughest environments and operate in extreme temperatures, dust, water, and shock
- Send and receive updates in real time and eliminate delays associated with traditional reporting methods
