

# Spatial Display

LH85SMHPBGCXZA

## Target Markets

- Sports venues and arenas
- Fitness and training facilities
- Sports brands and retail

## Ten-Second Sales Points

- Virtual 3D display
- True 3D Enhancer
- Ultra thin design

## Key Features

### Deliver Immersive realism through display innovation

#### Virtual 3D Display

Powered by Samsung's 3D plate technology, this display goes beyond 2D content — bringing it to life in 3D, face-to-face with your audience. Vivid details feel right within reach, making every moment unforgettable.

### Maximizing the 3D effect for greater impact

#### True 3D Enhancer

Samsung's enhancement solution adds subtle shadow effects that enhance depth perception, making 3D visuals more vivid and impactful.

### Bold visual, seamless fit

#### UltraThin Design

Delivering 3D visuals with a 2 inch slim profile, this display offers the same installation ease as standard signage — lightweight, space-efficient, and ready for various environments.
