

Series 5 Pro

Series 5 Pro Headset

Model number | VCV5000

In our two decades in retail, we learned to notice what makes the best stores tick, how challenges in head office impact the shopfloor and what everyday struggles are holding back frontline workers. For us, it's always been key to talk to our customers to find out what they really want and need. Because we've served our time in the retail industry, and nowhere else, we were uniquely placed to develop a new headset that delivers the precise comfort and functionality they asked for. Carefully refined, tested and perfected over the last two years by our expert team, we are excited to introduce **Series 5 Pro**, the first headset developed for real life in retail.
